PROJECTS

Women Security Application
Role: Developer Developed core functionalities of the Women Security system. Developed a Women Security Application that provides emergency alerts, location tracking, and quick contact features to ensure user safety.

Maharashtrian Recipes Website
Role: Project Contributors Supported the team in building the project Helped in coding, documentation, and testing. The main objective of this project is to make it easy for users to explore and learn regional dishes. The website includes a variety of recipes with details such as ingredients, preparation steps, and cooking methods. It provides a clean interface where users can quickly search and view different dishes.

Quiz Management System

Role-Team member: Assisted in designing and implementing key features Participated in testing and debugging. Developed a Quiz Management System that allows users to attempt quizzes and get instant results with automatic score calculation

.

ADDITIONAL INFO

I would like to say that I am a quick learner and very interested in starting my career in this field. I am eager to learn new skills and contribute to the organization. Thank you for giving me this opportunity.
